

<b>Patient Name: CHANDRASHEKHAR SANDHYA</b>	<b>Patient ID: 070/01/2017</b>
<b>Patient Age: 29 Y / F</b>	<b>Referring doctor: DR. C. B. KOPPIKER</b>
<b>Date of examination: January 18, 2018</b>	<b>Examination: Ultrasound</b>

### Right Breast Ultrasound Report

#### Indication:

- K/C/O granulomatous mastitis of right breast.

Multiple prominent ducts with mobile internal echoes are seen in the 5-6 'o' clock position of the right breast. This is s/o duct ectasia.

No peri-ductal increased vascularity seen. No localized collection/abscess noted.

An oval solid hypo echoic circumscribed lesion with parallel orientation is seen in the 10 'o' clock 2B position of right breast measuring 26.1 x 13.4 mm. Internal vascularity noted.

*This is dt. a FA.  
No internal change  
is noted.*
